LEGEND

SYMBOL DESCRIPTION

SYMBOL

DESCRIPTION

SYMBOL

When international, state, county, and/or MCD/CD boundaries coincide, the map shows the boundary symbol for only the highest ranking of these boundaries.

Geographic area names are followed by either their FIPS or census code.

1. A " " following an MCD name denotes a State MCD. A " " following a place name indicates that the MCD coincides with the same census and FIPS code as the place. The State MCD label is not shown.

2. The label codes correspond to the place fill color.

3. Census tracts are identified by an up-to four-digit integer number and may have an optional five-digit suffix. For example, 10100. The census tract number consists of six digits with an implied decimal between the fourth and fifth digit corresponding to the basic census tract number, but with leading zeros and trailing zeros for census tracts without a suffix. The first number example above would have code of 002000 and 101000, respectively.

Show unimproved properties, water road names, along with other features and geographic names on the map, may not be shown.

SCALE

0 1000 Feet

North Arrow

All legal boundaries and names are as of January 1, 2020. The boundaries shown on this map are for Census Bureau statistical data collection and tabulation purposes only. They do not constitute a representation of jurisdictional authority or rights of ownership or control.
